

TIM JASPER  
Kitchens

## BESPOKE KITCHENS

Every Tim Jasper kitchen is designed and built entirely from scratch, so is completely unique and perfectly tailored to our clients needs. As each kitchen is individually designed we are able to find effective solutions for awkward spaces, and where space is limited we can utilize every inch available.

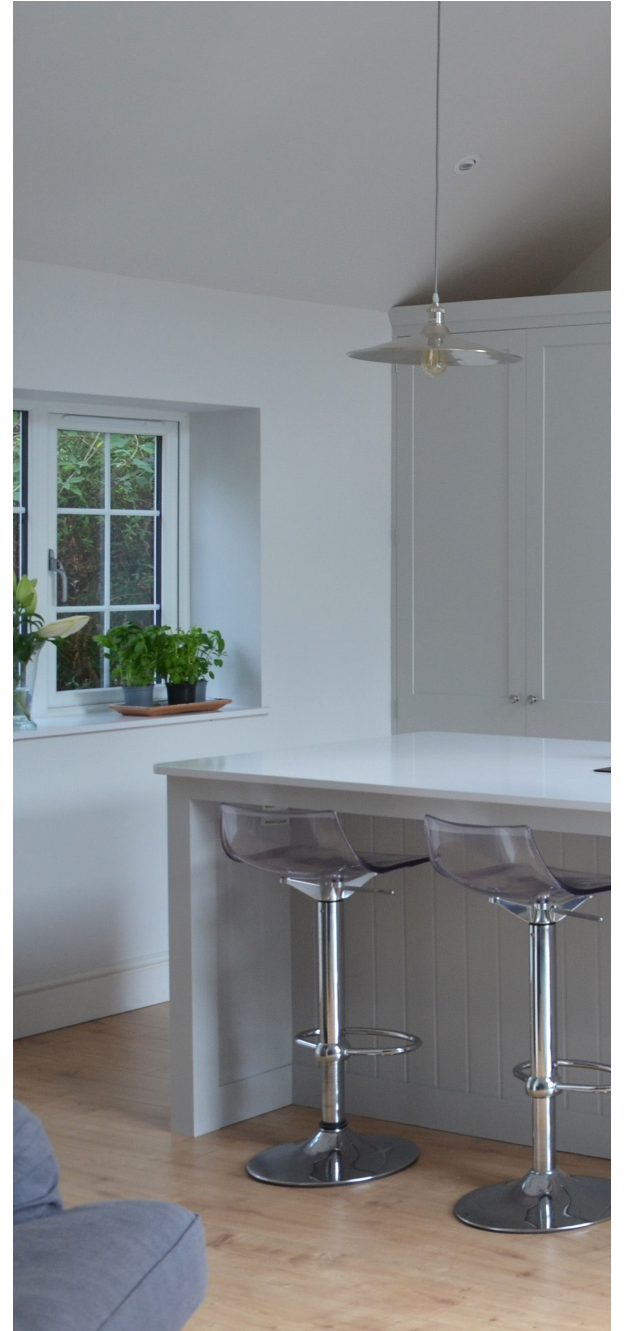

# STUNNING SOLUTIONS

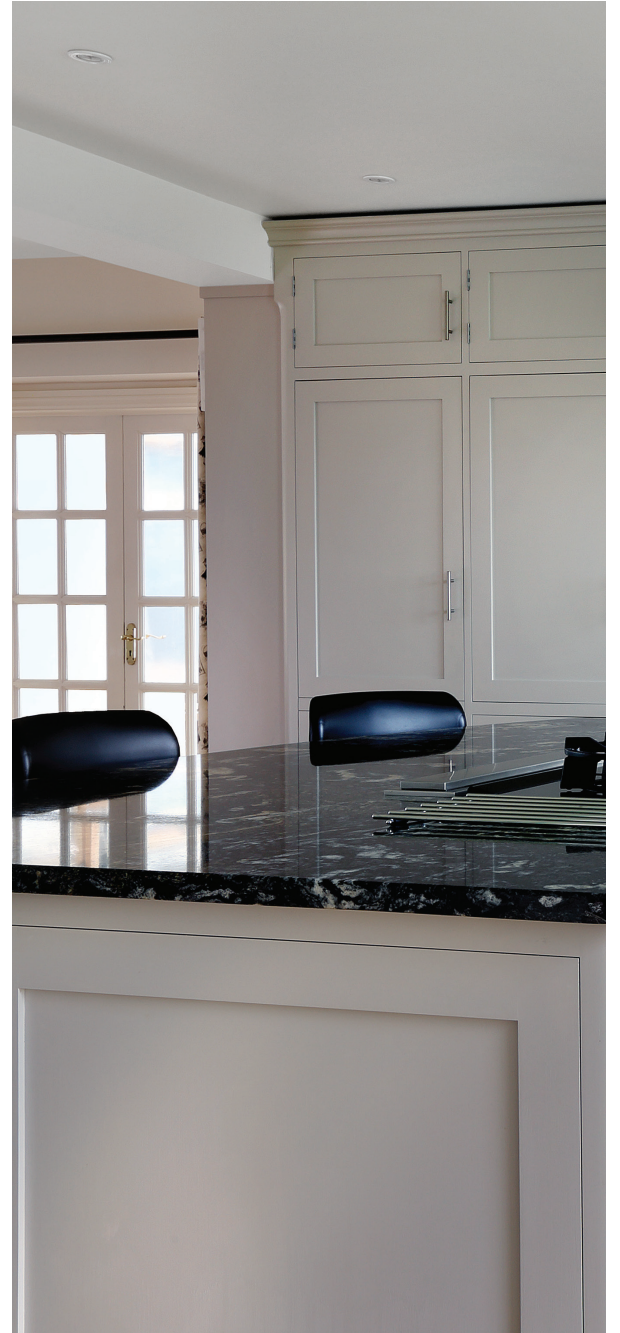

We create light airy spaces that are a joy to live and work in. If you want to use the kitchen for entertaining we design lighting systems to enhance the atmosphere and change the focus of the room in the evenings, while ensuring that every part of the kitchen is properly lit when you are cooking.

## CUSTOM CABINETRY

We will design a kitchen that has everything to hand, just where you need it, and design ingenious storage systems reducing the risk of back strain. Above all Tim Jasper kitchens are rooms to be lived in, with the warmth and ambience only natural, living wood can give.

# COMPLETE INTERIORS

We refurbish whole homes, from the basement to the attic, provide architectural and planning drawings and take complete responsibility for every aspect of a scheme. This page illustrates the variety of projects we can create, bedrooms, dressing rooms, garden buildings, libraries, media rooms, timber extensions and more. For more examples of our interiors visit the Tim Jasper website [www.timjasper.co.uk](http://www.timjasper.co.uk)
